The **SPEAKER** pro tempore. Pursuant to the rule, the gentlewoman from Kansas (Ms. DAVIDS) and the gentleman from Missouri (Mr. LUETKEMEYER) each will control 20 minutes.

The Chair recognizes the gentlewoman from Kansas.

GENERAL LEAVE

Ms. DAVIDS of Kansas. Madam Speaker, I ask unanimous consent that all Members may have 5 legislative days in which to revise and extend their remarks and include extraneous material on the measure under consideration.

The **SPEAKER** pro tempore. Is there objection to the request of the gentlewoman from Kansas?

There was no objection.

Ms. DAVIDS of Kansas. Madam Speaker, I yield myself such time as I may consume.

Madam Speaker, I rise in support of the bill before us today, H.R. 1490, the 504 Modernization and Small Manufacturer Enhancement Act of 2021.

504 loans are an important SBA capital access product, allowing small businesses to affordably purchase machinery and equipment, acquire real estate, or take on other fixed asset costs.

The loan has a three-party structure where an SBA-backed 504 lender provides 40 percent of the financing, a third-party lender provides 50 percent of the financing, and a small business borrower provides 10 percent. This unique structure has helped thousands of entrepreneurs expand their businesses and hire more employees, especially businesses with significant fixed costs.

Last Congress, the Committee on Small Business's Subcommittee on Oversight, Investigations, and Regulations held a hearing to review the current status of the 504 loan program. We heard from a panel of 504 lenders who reported concerns with the loan closing process, specifically that closing delays have caused loans to fall through and businesses to lose out on affordable financing.

To that end, Ms. CRAIG put forth a strong proposal to streamline the 504 loan closing process and make compliance easier for CDCs, borrowers, and third-party lenders, who are essential to the 504 loan structure.

Two of the provisions of that bill, which passed unanimously through our committee and the House, were also included in the Economic Aid Act that was enacted in December.

The version of the bill before us today is identical to the version we passed last Congress, but for those provisions included in the Economic Aid Act.

The changes under consideration today continue to address the issues we have heard in our engagement with 504 lenders and their borrowers in our districts, and I am pleased we are taking a vote on them today.

□ 1445

These include increasing the maximum loan size for small manufacturers from \$5.5 million to \$6.5 million and easing the job retention or creation requirement for them, which helps make 504 loans easier to access.

We should be doing everything that we can to make navigating and utilizing this program as simple as possible. As a member of the Small Business Committee, I am committed to helping our small businesses and manufacturers weather this current crisis and to helping Main Street come back even stronger.

It is why I fought to secure \$10 billion for the Defense Production Act in the American Rescue Plan Act to ramp up domestic production of PPE and other critical supplies. It is also why I introduced the SUPPLIES Act, which would promote the manufacturing of PPE and medical supplies by small businesses here in the U.S. I am proud to be a cosponsor of the bill to help small businesses and manufacturers so they can help us.

I want to thank the gentlewoman from Minnesota and the gentlewoman from California for their hard work, and I applaud their efforts to make bipartisan improvements to this valuable program.

I recommend a “yes” vote to all my colleagues in the House.

Madam Speaker, I reserve the balance of my time.

Mr. LUETKEMEYER. Madam Speaker, I yield myself such time as I may consume.

Madam Speaker, I rise in support of H.R. 1490, the 504 Modernization and Small Manufacturer Enhancement Act of 2021.

When capital options are limited for a small business, the SBA offers numerous lending programs, including the 504/Certified Development Company Loan Program. Also known as a 504/CDC loan, the program provides long-term and fixed-rate financing that primarily supports purchases of real estate and machinery.

Due to the program's unique cost structure that includes a small business, a lender, and a certified development company, the process is often lengthy and cumbersome. H.R. 1490 takes important steps to streamline the closing process and ensures the Nation's job creators move through the program in a smooth and efficient manner.

Additionally, H.R. 1490 enhances the 504/CDC loan program for America's

small manufacturers. By increasing the maximum loan amount for small manufacturers, H.R. 1490 ensures these small businesses have the capital to expand and create jobs in Missouri and beyond.

Enhancements to lending resources and tools, such as those outlined in H.R. 1490, is exactly what our small businesses, entrepreneurs, and startups need.

I want to highlight the work of Ms. CRAIG from Minnesota, Mrs. KIM from California, Mr. CHABOT from Ohio, and Ms. DAVIDS from Kansas on this important matter. I would also like to thank the chairwoman for her efforts as well.

The changes in H.R. 1490 will improve delivery of the 504/CDC loan program for all of America's small businesses. I urge all my colleagues to support H.R. 1490.

Madam Speaker, I reserve the balance of my time.

Ms. DAVIDS of Kansas. Madam Speaker, I yield such time as she may consume to the gentlewoman from Minnesota (Ms. CRAIG).

Ms. CRAIG. Madam Speaker, for over a year now, small businesses in my district and across the country have struggled to make it through this public health and economic crisis. As a result of this pandemic, prospective small business owners face a steeper climb than ever before.

We must do more to make it easy to start, operate, and expand a small business in our communities. One of the most important ways that we can do this is by ensuring that the Small Business Administration's loan programs are operating as effectively and efficiently as possible.

Today, we have two bills that would do exactly that, including my bipartisan bill, the 504 Modernization and Small Manufacturer Enhancement Act. These crucial bipartisan pieces of legislation will not only increase the amount of capital available to manufacturers, but will actually ease the process of getting a loan because, in the midst of a severe economic crisis, our businessowners simply cannot be bogged down in red tape and legalese.

Taken together, these bills will help to promote the economic development of small manufacturers, creating good paying jobs in growing industries all across this country.

To demonstrate just how impactful these loans can be, I want to tell you about Nate Bry, a lifelong resident of Rosemount, Minnesota. Thirteen years ago, Nate founded a sports apparel company called Custom Apparel Inc. in the basement of his home. After years of hard work, Nate felt that it was finally time to reach a turning point, but he didn't have the resources he needed to take his business to the next level. When Nate received a 504 loan, he was immediately able to invest in his company, building a facility to manufacture his products right in his hometown, creating good-paying jobs in the very same community where he grew up.

Nate's story, like so many others, is proof that the 504 loan program can change the lives of small business owners in this country. This program ensures that small businesses like Nate's are able to succeed, bringing home the job growth and economic stability that our communities are striving for, especially as we emerge from this devastating economic crisis.

Because these are not simply businesses. These are livelihoods, family traditions, and priceless contributions to our communities, and we have an opportunity to support them on a bipartisan basis by taking action today.

Madam Speaker, I urge all of my colleagues to come together and join me in supporting these bills and businesses across our Nation.

Mr. LUETKEMEYER. Madam Speaker, I yield such time as she may consume to the gentlewoman from California (Mrs. KIM), someone who believes in cutting red tape to help ease the regulatory burden on all our small businesses.

Mrs. KIM of California. Madam Speaker, I thank Representative LUETKEMEYER for his leadership in the House Small Business Committee. I would also like to extend my special thanks to Chairwoman VELÁZQUEZ for putting forward these very important bills.

Madam Speaker, I rise in strong support of H.R. 1490, the 504 Modernization and Small Manufacturer Enhancement Act of 2021.

I was proud to join my colleagues, Representatives CRAIG, DAVIDS, and CHABOT, to introduce this bipartisan bill to modernize the SBA's 504 loan program. The program was established with the mission to incentivize economic growth and job creation by providing small businesses with affordable long-term financing.

Our bill will provide the SBA with the tools to assist small businesses as they recover during COVID-19. H.R. 1490 would expand eligibility of 504 loans for small businesses that have focused on workforce development, revitalized areas hit hard by the pandemic or disaster areas, and implemented energy-efficient products, or have 10 or fewer employees. These additions will strengthen the 504 loan program for the long run and help small businesses in my community access much-needed capital.

The bill will also streamline the closing process of 504 loans. Specifically, H.R. 1490 allows Certified Development Companies to rectify documentation without the implicit approval of the SBA. These corrections will allow small businesses to make investments in their community or hire more workers without delay.

Lastly, the bill would support our small manufacturers to ensure that our community's manufacturing base remains strong and competitive during these difficult times.

Madam Speaker, I urge my colleagues on both sides of the aisle to support H.R. 1490.

Ms. DAVIDS of Kansas. Madam Speaker, I reserve the balance of my time.

Mr. LUETKEMEYER. Madam Speaker, I yield such time as she may consume to the gentlewoman from New York (Ms. TENNEY), a small business owner herself who knows the importance of cutting red tape and how it can be linked to success of a small business.

Ms. TENNEY. Madam Speaker, I thank Chairwoman VELÁZQUEZ and Ranking Member LUETKEMEYER for bringing forth this great bipartisan bill.

I rise today in support of H.R. 1490, the 504 Modernization and Small Manufacturer Enhancement Act. I am proud to cosponsor this bill with my colleagues from both sides of the aisle.

This bipartisan legislation improves the loan guaranty program and helps small manufacturers access capital by streamlining the loan process and providing support to manufacturers who apply for the loan from local Small Business Administration district offices.

As small businesses across the country and throughout New York's 22nd District continue to struggle with the devastating impacts of COVID-19, we must provide targeted support to our small businesses and manufacturers, and H.R. 1490 does just that.

This legislation increases the maximum loan amount to \$6.5 million and requires SBA district offices to partner with SBA resource partners to provide entrepreneurial development assistance to small manufacturers, which are abundant in central New York.

This bill will also work to lower costs and streamline numerous administrative processes for small manufacturers, giving these businesses the tools and support they need to keep their doors open, something that has been said to me repeatedly through numerous townhalls with the small business community around the region.

As a member of the House Small Business Committee and, as the ranking member indicated, the owner of a small manufacturing facility that is in its 75th year in central New York, I am pleased to cosponsor H.R. 1490 and the other three small business bills on the floor today. These four bills will provide targeted relief to small businesses across New York's 22nd District and throughout the Nation. At a time when Americans seek true bipartisanship from its elected officials, I am honored to be part of that effort.

Madam Speaker, I thank Representative CRAIG from Minnesota and Representative KIM from California for their leadership on this issue. I look forward to continuing to work with them on this matter.

Ms. DAVIDS of Kansas. Madam Speaker, I continue to reserve the balance of my time.

Mr. LUETKEMEYER. Madam Speaker, we have one more gentleman coming, but there is a long path between

his office and here. Apparently he is not here on time, so I am prepared to close.

Madam Speaker, as our economy continues to recover and as our small businesses rebuild, existing Federal Government programs, tools, and resources need to be ready to provide assistance. Processes that are slow and unwieldy must be examined and retooled to ensure they are working on behalf of small businesses and the American public.

H.R. 1490, the 504 Modernization and Small Manufacturer Enhancement Act of 2021, takes these steps to streamline the program while ensuring it is a viable option for small businesses as they recover and grow.

Additionally, H.R. 1490 places a direct focus on our Nation's small manufacturers. We must continue to work in a bipartisan manner to ensure these programs are ready for recovery.

With that, I urge my colleagues to support H.R. 1490.

Madam Speaker, I yield back the balance of my time.

Ms. DAVIDS of Kansas. Madam Speaker, I yield myself such time as I may consume.

Madam Speaker, the SBA's 504 loan program has made a significant impact on our Main Streets in its 62-year history.

In addition to partnering with banks to extend affordable fixed-asset capital, most CDCs in the program are also actively involved in promoting local economic development, especially for underserved business communities.

I am proud of the opportunity we have today to continue supporting the work of CDCs. I want to applaud the work by the gentlewoman from Minnesota, the gentlewoman from California, and their bipartisan effort on the 504 program.

I encourage all of my colleagues to vote "yes."

Madam Speaker, I yield back the balance of my time.

The SPEAKER pro tempore. The question is on the motion offered by the gentlewoman from Kansas (Ms. DAVIDS) that the House suspend the rules and pass the bill, H.R. 1490.

The question was taken.

The SPEAKER pro tempore. In the opinion of the Chair, two-thirds being in the affirmative, the ayes have it.

Mr. WEBER of Texas. Madam Speaker, on that I demand the yeas and nays.

The SPEAKER pro tempore. Pursuant to section 3(s) of House Resolution 8, the yeas and nays are ordered.

Pursuant to clause 8 of rule XX, further proceedings on this motion are postponed.
